

Dear Researcher:

Thank you for your interest in conducting research in the Sunnyside district. Please complete the following form and email or fax to Javier Baca. The level of detail in your responses will assist us in determining to what level we are able to support your research.

The mission of the Sunnyside Unified School District is to build upon our students' strengths and ensure that all students are socially, emotionally and academically prepared for College & Career success by creating challenging, meaningful and engaging learning opportunities so that all students thrive and are prepared to contribute to a diverse, rapidly changing, global society.

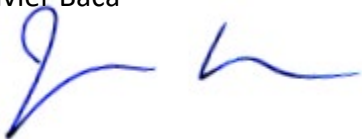

In light of this new mission our research interests center on the areas of:

1. Increasing academic potential and achievement for diverse learners (priority on English Language Learners).
2. Reducing at-risk behaviors that decrease dropout and increase graduation rates
3. Innovative models to inform the continuous improvement of school systems
4. Original structures for developing effective administrative and teacher leaders
5. Deep inquiry on student learning and student agency
6. Investigations on increasing the understanding of factors influencing the career and college readiness of Latino students
7. Methods of more effectively establishing environments that foster safe & orderly schools

The district reserves the right to restrict dissemination and/ or publication if participant, school and/ or district anonymity is compromised."

If you have any questions on the forms or in our review processes please do not hesitate to contact me or my assistant, Gina Gomez at ginag@susd12.org

Research Approval Requirements

District approval shall require that the researcher agree to provide the following:

- A final written summary report of the study and significant district findings to the Student Services Department upon completion of the project. This summary can be submitted electronically to Mr. Javier Baca, Chief Information Officer at javierb@susd12.org

- An acceptance notice (email notification will suffice) based upon the formal District approval letter informing the district of your commitment to comply with these requirements.

Your research approval notice will be submitted for review to the Superintendent and the District Leadership Team (DLT). For research requests lasting longer than one semester, a timeline will be required that specifies when interim summary updates will be provided.

NOTE: Research that requires significant student, staff and/or district participation, especially activities that would interrupt instruction, may not be approved.
